The Wareham Community Electricity Aggregation Program cannot guarantee savings compared to Eversource Basic Service for the duration of the Program pricing because future Basic Service rates are unknown.

Program prices could also increase as a result of a change in law that results in a direct material increase in costs during the term of the electric supply contract. Program prices include a commission fee of \$0.001/kWh for the aggregation consultant. Program prices also include taxes which are billed as part of the power supply charge.

Wareham Community Electricity Aggregation prices apply to service beginning and ending on the days of the month that your meter is read. Rates indicated above are for Supply Services only.

Some products contain additional Renewable Energy Certificates (RECs) above that required by MA law. The additional RECs qualify for MA Class I designation from generation located within, or delivered to, New England.

RENEWABLE ENERGY DETAIL

The Commonwealth of Massachusetts requires that all electric supply products include a minimum of 59% renewable energy resources in 2023, 62% in 2024, and 63% in 2025. Some program products, as shown below, contain additional renewable energy that exceeds the minimum required by the Commonwealth.

Name	Year	Required RPS MA Class I	Required Other	Voluntary MA Class I	Total
Eversource Basic Service (if you opt out)	2023	22%	37%	-	59%
	2024	24%	38%	-	62%
	2025	27%	36%	-	63%
Wareham Standard (automatic)	2023	22%	37%	10%	69%

The Renewable Portfolio Standard (RPS) is the minimum renewable energy required each year by the Commonwealth of Massachusetts. MA Class I renewables are from new sources located within, or delivered to, New England, and built after 1997. For details on all required sources, see www.mass.gov/service-details/program-summaries.
