WAREHAM COMMUNITY ELECTRICITY AGGREGATION

October 15, 2025

The Town of Wareham is pleased to introduce you to our electricity supply program, Wareham Community Electricity Aggregation (CEA). The program is designed to help our community members manage electricity supply costs and increase the use of renewable energy. This letter explains the program and your options.

Your account is scheduled for automatic enrollment in “Wareham Standard” supply beginning with your next available meter read.

Your new supply
“Wareham Standard”
costs less than Eversource’s
current residential supply price.

You may opt out and not participate. You may also select another supply option offered by Wareham.

The deadline to opt out of the program before your enrollment begins is November 17, 2025.

Wareham CEA is a group purchasing program for electricity supply offered by the Town. Your electric bill from Eversource has two sections: Supply (the source of electricity) and Delivery (getting electricity to you). As your utility, Eversource will always manage Delivery. If you participate in Wareham’s program:

- **What changes?** Participation in the program will only change the name of the supplier and the cost of supply, shown in the Supply section of your electric bill from Eversource.
- **What stays the same?** Everything else remains the same. Delivery costs from Eversource are not impacted. Eversource will continue to manage all electricity billing. All existing payment arrangements, such as budget or balanced billing and low-income rate class discounts, remain in effect. Any solar net metering credits or other solar benefits also stay the same. Eversource will continue to respond to power outages and maintain poles, wires, and your meter.

Wareham CEA is a municipal aggregation program. More than 200 cities and towns operate similar programs. Massachusetts law structures the program as automatic enrollment and requires that customers have the opportunity to opt out before enrollment. You can opt out of the program at any time, without penalty.

WAREHAM’S SUPPLY PRODUCTS

Our automatic enrollment product, Wareham Standard, is designed to be cost-competitive and contains the minimum renewable energy required by the State. You may also elect an option with more renewable energy.

Our prices are fixed for 36 months, from November 2025 until your November 2028 meter read.

WAREHAM STANDARD (Auto-enroll)	WAREHAM PLUS (Option)
14.346 ¢/kWh no additional renewable energy (63% in 2025)	15.475 ¢/kWh adds renewable energy to total 100% (100% in 2025)

The Eversource Basic Service residential price is 14.884 ¢/kilowatt-hour (kWh) from August 1, 2025 – January 31, 2026, and contains the minimum amount of renewable energy required by the State. Because Eversource prices change frequently and future rates are unknown, future savings cannot be guaranteed.

If you participate in the program, your Eversource bill will show “Constellation - Wareham” as the supplier. The Wareham price will take effect as of your next meter read.

NEXT STEPS

- No action is necessary to receive the Wareham Standard product.
- To choose Wareham Plus, call our program’s electricity supplier, Constellation, at (833) 461-0813, or submit a request at [WarehamCEA.com](https://www.warehamcea.com).
- To continue with Eversource Basic Service for your electricity supply, you must opt out. **To opt out before being automatically enrolled, you must take one of the following actions on or before November 17, 2025:**

- Program prices apply to service beginning and ending on the days of the month that your meter is read.
- Program prices only apply to the Supply portion of your electric bill. Eversource will continue to set the Delivery charges on your electric bill.
- Visit WarehamCEA.com for additional details about our program, including an easy-to-use calculator to compare costs.
- Tax-exempt small business customers participating in the program must provide a copy of their tax-exemption certificate directly to Constellation via email at CNETaxForms@constellation.com or mail to Attn: Tax Team, 1001 Louisiana Street, Suite 2300, Houston, TX 77002 to maintain tax-exempt status.
- At the end of the pricing term in November 2028, you will be automatically renewed in your current product, which may have a higher or lower price and a different percentage of voluntary renewable energy as negotiated by the Town. The Town will announce price changes before any such change takes effect. Product details will always be available on the Town’s website for the program: WarehamCEA.com.
- The State requires all electricity products to include a minimum amount of renewable energy. The Town voluntarily adds more Class I renewable energy to Wareham Plus. Class I renewables come from new sources located within, or delivered to, New England, and were built after 1997. Wind, solar, and low-impact hydropower are some of the most common sources that qualify for Class I. For more details on Class I sources and the minimum amount of renewables required by the State, see <http://www.mass.gov/service-details/program-summaries>.
